DUCANE ROAD  
LONDON, W.12

4th. August, 1953.

My dear Lederberg,

Concerning my proposed visit to see you, I will be arriving in N.Y. about August 28, will buy a car and hope to set out westwards with my family about September 1 or 2. I will park the family with the Benzers at Lafayette about Sept. 3 or 4 and will probably make my way to Madison by train. Since I will be anxious to move on as soon as possible, this means that it would be most convenient for me to visit you on either Saturday or Sunday, Sept. 5 or 6. I cannot tell whether this would be convenient for you on the grounds that you would probably be free from classes and other duties on these days, or whether you employ your Sundays, in particular, away from work. I do not wish to put you to any inconvenience and, if these days are not suitable, I think I could manage Monday. This schedule is only provisional, though highly probable, since I have not yet acquired the car although I have made arrangements for its purchase. Please let me know whether the Sat. or Sunday would be suitable if I can make it. I will be at the above address till Aug. 17. After that, "care of Miss Klem (to await arrival), L.I.B.A., Cold Spring Harbor" will reach me. I will, of course, give you more immediate notice when my arrangements are more sure.

May I wish you every luck in your new house?

Yours sincerely,

*Bill Hayes*
